Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

**Advisory Action
Before the Filing of an Appeal Brief**

Application No.

10/797,394

Applicant(s)

CARTER ET AL.

Examiner

Timothy J. Kugel

Art Unit

1712

--The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

THE REPLY FILED 13 August 2007 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE.

1. ☐ The reply was filed after a final rejection, but prior to or on the same day as filing a Notice of Appeal. To avoid abandonment of this application, applicant must timely file one of the following replies: (1) an amendment, affidavit, or other evidence, which places the application in condition for allowance; (2) a Notice of Appeal (with appeal fee) in compliance with 37 CFR 41.31; or (3) a Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. The reply must be filed within one of the following time periods:

- a) ☐ The period for reply expires _____ months from the mailing date of the final rejection.
b) ☐ The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection.

Examiner Note: If box 1 is checked, check either box (a) or (b). ONLY CHECK BOX (b) WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).

Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

NOTICE OF APPEAL

2. ☒ The Notice of Appeal was filed on 13 August 2007. A brief in compliance with 37 CFR 41.37 must be filed within two months of the date of filing the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a Notice of Appeal has been filed, any reply must be filed within the time period set forth in 37 CFR 41.37(a).

AMENDMENTS

3. ☐ The proposed amendment(s) filed after a final rejection, but prior to the date of filing a brief, will not be entered because
(a) ☐ They raise new issues that would require further consideration and/or search (see NOTE below);
(b) ☐ They raise the issue of new matter (see NOTE below);
(c) ☐ They are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or
(d) ☐ They present additional claims without canceling a corresponding number of finally rejected claims.

NOTE: _____. (See 37 CFR 1.116 and 41.33(a)).

4. ☐ The amendments are not in compliance with 37 CFR 1.121. See attached Notice of Non-Compliant Amendment (PTOL-324).
5. ☐ Applicant's reply has overcome the following rejection(s): _____.
6. ☐ Newly proposed or amended claim(s) _____ would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).
7. ☒ For purposes of appeal, the proposed amendment(s): a) ☐ will not be entered, or b) ☒ will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended.
The status of the claim(s) is (or will be) as follows:
Claim(s) allowed: _____.
Claim(s) objected to: _____.
Claim(s) rejected: 1, 14, 18, 19, 33 and 34.
Claim(s) withdrawn from consideration: 2-13, 15-17, 20-32 and 35-39.

AFFIDAVIT OR OTHER EVIDENCE

8. ☐ The affidavit or other evidence filed after a final action, but before or on the date of filing a Notice of Appeal will not be entered because applicant failed to provide a showing of good and sufficient reasons why the affidavit or other evidence is necessary and was not earlier presented. See 37 CFR 1.116(e).
9. ☐ The affidavit or other evidence filed after the date of filing a Notice of Appeal, but prior to the date of filing a brief, will not be entered because the affidavit or other evidence failed to overcome all rejections under appeal and/or appellant fails to provide a showing of good and sufficient reasons why it is necessary and was not earlier presented. See 37 CFR 41.33(d)(1).
10. ☐ The affidavit or other evidence is entered. An explanation of the status of the claims after entry is below or attached.

REQUEST FOR RECONSIDERATION/OTHER

11. ☒ The request for reconsideration has been considered but does NOT place the application in condition for allowance because:
See attached detailed advisory action.
12. ☐ Note the attached Information Disclosure Statement(s). (PTO/SB/08) Paper No(s). _____.
13. ☐ Other: _____.

DETAILED ADVISORY ACTION

1. Claims 1-39 are pending as amended on 16 March 2007. Claims 2-13, 15-17, 20-32 and 35-39 are withdrawn from consideration.
2. The notice of appeal filed 13 August 2007 is acknowledged. A brief in compliance with 37 CFR 41.37 must be filed within two months of the date of filing the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a Notice of Appeal has been filed, any reply must be filed within the time period set forth in 37 CFR 41.37(a).
3. The text of those sections of Title 35, US Code not included in this action can be found in a prior Office action.

Response to Amendment

4. Applicant's amendment to the specification, filed 13 August 2007, has been entered and fully considered. The amendment, specifically the correction of the format of Trademarked terms, is corrective.

The objection to the specification has been withdrawn.

Claim Rejections - 35 USC § 103

5. Claims 1, 14, 18, 19, 33 and 34 stand rejected under 35 USC § 103(a) as being unpatentable over US Patent 6,013,729 (Tsujiimoto hereinafter) in view of International

Patent Application Publication WO 96/16110 (Karrer hereinafter). An English language translation of Karrer has been obtained and is enclosed with this Office Action.

Tsujimoto teaches an elastomer composition—including linear organohydrogensiloxanes crosslinked with a platinum-vinylsiloxane complex (Column 4 Line 36 – Column 6 Line 3) and other additives such as hindered amine light stabilizers (Column 9 Lines 20-29).

Tsujimoto does not disclose expressly the use of organosiloxane modified hindered amines.

Karrer discloses polyorganosiloxanes, including those with sterically hindered tertiary amine functionality with a pendant siloxane chain (Title, Abstract and Formula of Page 14).

At the time of the invention, it would have been obvious to a person of ordinary skill in the art to include the polyorganosiloxane hindered amines of Karrer in the composition of Tsujimoto. The motivation to do so would have been to improve the light stabilization of polymers (Karrer Abstract).

Regarding claim 34, a recitation of the intended use of the claimed invention must result in a structural difference between the claimed invention and the prior art in order to patentably distinguish the claimed invention from the prior art. If the prior art structure is capable of performing the intended use, then it meets the claim. Further, since Tsujimoto and Karrer combine to teach the same composition as claimed, the curability of the Tsujimoto/Karrer composition would inherently be the same as claimed.

Response to Argument

6. Applicant's arguments filed 13 August 2007 have been fully considered but they are not persuasive.

Applicant argues that Tsujimoto fails to teach the polyorganosiloxanes claimed; however, the components of Tsujimoto meet the instant claims (Column 4 Line 36 – Column 6 Line 3), especially compounds II-2 and II-3.

Applicant further argues that there is no motivation to combine the teachings of Karrer with those of Tsujimoto; however, motivation is supplied by the teaching of Karrer that the polyorganosiloxane hindered amines taught improve light resistance of polymers (Karrer Abstract). Further, it has been held that it is *prima facie* obviousness to use a known material based on its suitability for its intended use (*Sinclair & Carroll Co. v. Interchemical Corp.*, 325 US 327, 65 USPQ 297 (1945), *In re Leshin*, 227 F.2d 197, 125 USPQ 416 (CCPA 1960) and *Ryco, Inc. v. Ag-Bag Corp.*, 857 F.2d 1418, 8 USPQ2d 1323 (Fed. Cir. 1988)).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Timothy J. Kugel whose telephone number is (571) 272-1460. The examiner can normally be reached on 6:00 AM - 4:00 PM Monday - Thursday.

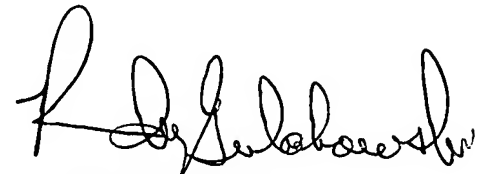

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Randy Gulakowski can be reached on (571) 272-1302. The fax phone

Art Unit: 1712

number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
